i3-TECHNOLOGIES

Share instantly

Taking notes and distributing them can be time-consuming. i3SNAP helps you **save precious time** during and after meetings. Walk up to the whiteboard and start taking notes. Use the i3SNAP app to **capture your notes**, and share them instantly with all stakeholders.

Why i3SNAP is great for your meetings

Simply note taking

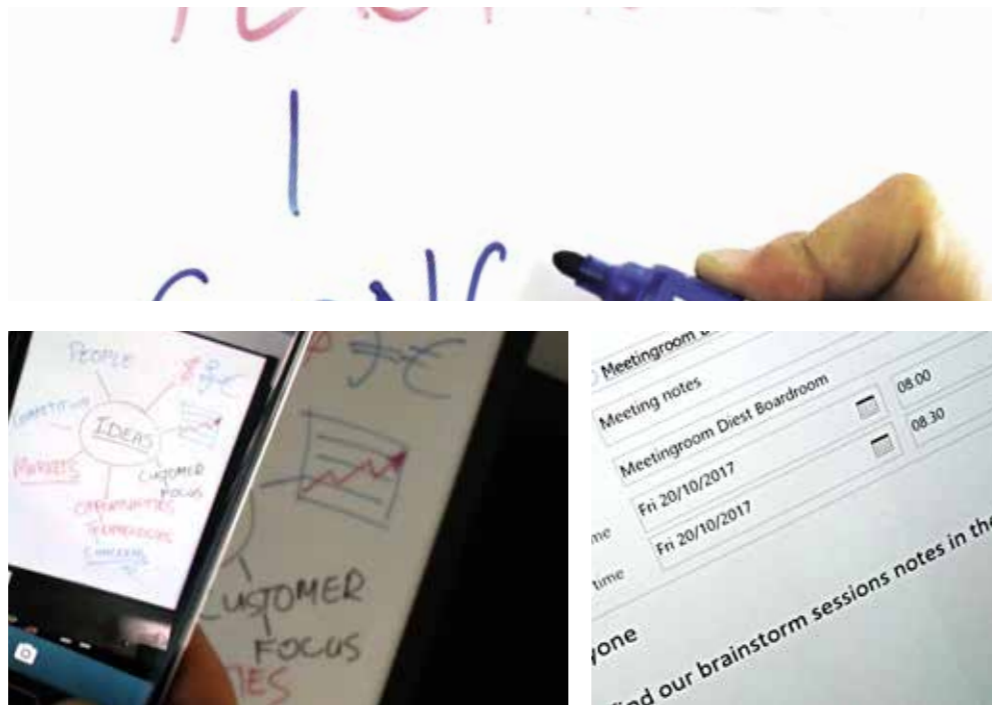

No need to learn new technology. Just walk up to the whiteboard & start writing or drawing. Don't let technology limit your workflow.

Instant sharing

Don't waste time copying or taking pictures of handwritten notes and forwarding them. Just use the i3SNAP app to capture your notes and share them instantly with all stakeholders, anywhere in the world.

No post-editing

The app improves the quality of the captured image allowing you to instantly share your notes with different colleagues afterwards. No post-editing required.

Features overview

Simple analogue input

Just walk up to the whiteboard and start taking notes. No need to learn a new technology.

High image quality

The app automatically improves the readability of the captured image.

Colour recognition

Attach sticky notes or mood boards to the whiteboard to complement your notes.

Instant digital sharing

Quickly add notes to any cloud service you use and share them instantly with all stakeholders wherever they are.

Background removal & cropping

The app removes the background and crops the image allowing you to share clean whiteboard pictures.

Integrated calendar

The app has an integrated calendar, which pulls up a list of all meeting attendees through your phone's calendar. This makes it easy to share your notes with all attendees.

From analogue to digital: the benefits

Analogue notetaking

Flexible, natural, low budget

No limitations – add sticky notes, create mood boards, ...

No training needed

Analogue

Digital

Digital sharing

Efficient, productive, always available

Save time – no need to copy or manually distribute notes

Save money – no need to pay for ink, toner and paper

Save the environment – no need to waste paper
