

i3ALLSYNC HDMI TRANSMITTER

Share your screen instantly.

Share your screen wirelessly from any device with our i3ALLSYNC HDMI Transmitter. Start sharing at the push of a button, without any installation. It is as easy as that!

All you need is the i3ALLSYNC wireless presenting app on your display, which is integrated on i3TOUCH P11, E10r and i3HUDDLE.

Plug the transmitter in to your laptop (or other suitable device). Press the button to share your screen. It's simple, fast and effective.

Plug & play

Connect the hardware transmitter to your laptop (or other compatible device) and press the button to share.

No software needed

No need to install the i3ALLSYNC software on to your laptop.

User-friendly

Start sharing your screen at the push of a button.

Works with

macOS

The i3ALLSYNC Hardware Transmitter is OS independent.
